EKYFLEX OSTEO

BONE SUPPORT

BONES

Description
Bone anormalities are common in both growing and sport horses: they range from growth problems to stress fractures and bone diseases, and require specific nutritional support.

Purpose
EKYFLEX OSTEO is a mineral feed formulated by AUDEVARD Laboratories. It is designed to provide nutritional support for horses' bones.

Formula
The unique EKYFLEX OSTEO formula combines bone components (marine calcium, vitamin D3, copper, chelated zinc and magnesium) selected for their high quality, along with ingredients such as silicon and MBP (a specific milk-derived peptide).

Our advice
Whether you're a trainer or breeder, ensure that your horse is getting all the nutrients essential for building bone structure, and plan ahead for critical growth phases and training. Using EKYFLEX OSTEO regularly is a good investment for your foal's future career.

Daily allowance
1 measure= 50g
- Adult horses: 2 level measures per day for 1 to 3 months.
- Foals: 1 level measure per day.

Professional Format
3 kg box - (EAN 3401198669074). Sufficient for one month's use in adult horses.

Composition for 1 kg

Additives :
- **3a-Vitamins, pro-vitamins and substances with similar effects :** E671 vitamin D3 10,000 IU
- **3b-Trace elements :** E6 zinc (chelate) 6,900 mg, E1 iron (oxide) 4000 mg, E4 copper (chelate) 1,800 mg.
- **Technology :** 1m558i Bentonite Clay 50,000 mg
