

EKYGARD

DIGESTIVE SUPPORT

Description

In horses, the gastric mucosa is often affected by the highly acidic environment of the stomach, particularly during exercise or when the animal is stressed. Acidity may affect the horse's quality of life, its ability to absorb food and, of course, its performance. These critical periods therefore require specific nutritional support.

Purpose

EKYGARD is a nutritional support formulated by AUDEVARD Laboratories for horses' gastric needs.

Formula

EKYGARD has been supporting horse's gastric comfort for over 10 years. Its comprehensive formula contains clay, pectin, lecithin and lithothamnion, while pre- and probiotics balance the flora. Extracts of Aloe Vera and Althaea officinalis complete the plant content, along with fenugreek, which is regarded as horses' favourite plant and optimises feed intake.

Our advice

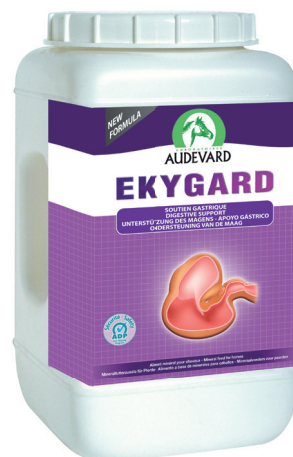

Help your customers plan ahead for periods when horse's needs are increased (transportation, competition, taking medication etc.) and advise them to give EKYGARD a minimum of three to four days before and one week after these periods.

Daily allowance

Daily allowance: 1 measure=20g
Adult horses: 2 level measures morning and evening.
Foals: 1 measure morning and evening.
EKYGARD can be given all year round.

Professional format

2.4 kg box - (EAN 3515657752440). Sufficient for up to 30 days' use in adult horses and two months' use in foals.
6 kg box - (EAN 3515650640645). Sufficient for up to 75 days' use in adult horses and 150 days' use in foals.
14 kg barrel - (EAN 3401148968615). Sufficient for up to six months' use in adult horses and one year's use in foals.

DIGESTIVE

Composition for 1 kg

Additives :

- **4a Digestibility enhancers:** 4a1704 YEA SACC (*Saccharomyces cerevisiae* - CBS 493.94) 20x10⁹ UFC/kg.
- **Technological enhancers:** 1m558i argile bentonite 400 000 mg, E322 lecithin 50 000 mg.

Raw materials :

Lithothamnion, pectin, sugar beet molasses, alfalfa, *Althaea officinalis*, brewer's yeast, fish hydrolysate, fenugreek (*Trigonella foenum-graecum*) marine algae, ispaghul, aloe (*Aloe vera*).
